Course Description: This course deals with the collection, preservation, and analysis of network generated digital evidence such that this evidence can be successfully presented in a court of law (both civil and criminal). The relevant federal laws will be examined as well as private sector applications. The capture/intercept of digital evidence, the analysis of audit trails, the recordation of running processes, and the reporting of such information will be examined.

Course Goals: At the conclusion of this course, the student will have learned the laws applicable to presenting network digital evidence in a court of law. The student will be able to successfully intercept network traffic, analyze logs, decipher network traffic, and report this information in a suitable format.

Honor Code: - The Mason Honor Code is in effect http://oai.gmu.edu/honor-code/masons-honor-code/

Student members of the George Mason University community pledge not to cheat, plagiarize, steal, and/or lie in matters related to academic work.

Prerequisites: TCOM 509/529 and working knowledge of a computer language and operating systems

Cross Listed: TCOM 660

Course Schedule: (Subject to Change)

**Projects:**
There will be four projects assigned during the semester. All projects must be typed, Times Roman 12 point, double spaced, with one inch margins. Each project will have a maximum length not including diagrams and bibliography. Each project is worth 10% of the total grade.

**Exams:**
The format of exams will be a combination of multiple choice, fill-in, and short answer questions. Expect approximately 50 – 70 questions per exam. The Final Exam is not cumulative per se; however, knowledge of the material covered in the first half of the semester is integrated into material covered in the second half of the course. The exams will have a duration of 2 hours and be open book and notes.

**Online Lectures:**
In certain situations, snow or something else causing a school closure or disruption, we will have class online via Blackboard Collaborate. You will be contacted by email ahead of time should a class be held online. Online classes will be recorded and saved for later review.

**Mason Calendar:** [http://registrar.gmu.edu/calendar.html](http://registrar.gmu.edu/calendar.html)

The above link will provide you with Mason’s important dates and deadlines.

**Course Material:**
All course material is available on Mason Blackboard.

- **How do you get on Blackboard?**
  - Go to: [https://mymasonportal.gmu.edu/webapps/portal/frameset.jsp](https://mymasonportal.gmu.edu/webapps/portal/frameset.jsp)
  - Login with your Mason Credentials
  - Click on the Courses tab
  - Click on the CFRRS-660-001/TCOM-660-001(Fall 2014) course

- **How do I get to the online lectures?**
  - Follow instructions to login into Blackboard
  - Click on **Tools**
  - Click on **Blackboard Collaborate**
  - You should see the current session listed
  - Previously recorded sessions are accessed via the **Previously Recorded** Tab

In order for Blackboard to work right, what do I need loaded on my computer

- JAVA
- Quicktime
- Flash

**External USB Drive Required (500 GB or higher)**
An External USB drive is required in order to maintain your software and virtual machines. An Ubuntu 13.10 or later VM is required.

**Thumb Drive (16 GB or higher)**
A Thumb Drive is required for Project 3. This Thumb Drive will be returned to you after Project 3 is graded.

**Software That You Will Need (Free Stuff) (place on your external drive)**
Software that you should have loaded on your personal computer include
- Wireshark  www.wireshark.org
- Network Miner  sourceforge.net/projects/networkminer/
- SNORT (offline mode only)  www.snort.org
- Process Monitor  Technet
- Process Explorer  Technet
- TCPView  Technet
- PEID  Technet
- Dependency Walker  Technet
- Others TBD

These tools are available on Blackboard or if you wish the latest and greatest, you can just Google for the tool.

Lab Computers – In class we will be using lab computers. Please make sure that your computer is working properly prior to the start of class. If your machine is not working, please let me know and switch to another computer.

Open Computer Lab - The open computer lab is located in Engr 1506. Both EnCase and FTK are installed on these computers as well as the software listed above.

Required Reading and Reference Material: Multiple books and sources are used to create this course. Of these, two are required text. For the purpose of exam preparation, the Blackboard notes are stressed.

Optional: Windows Forensic Analysis, Harlan Carvey, Syngress, ISBN #9781597494229

Optional: Real Digital Forensics; Jones, Bejtlich, and Rose; Addison Wesley; ISBN #0321240693 (JBR)

Optional: Mastering Windows Network Forensics and Investigation; Anson and Bunting; Sybex; ISBN #9780470097625

Optional: Wireshark & Ethereal Packet Sniffing; Orebaugh, Ramirez, and Beale; Syngress; ISBN #1597490733

Optional: Web Security; Mike Shema; Osborne; ISBN #0072227842

Optional: Cisco Router and Switch Forensics; Dale Liu; Syngress; ISBN #9781597494182 (Liu)
